EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert A. Hodges on January 14, 2004.

Claim 40 has been amended to read as follows:

40. (currently amended) A [pharmaceutical] composition comprising the nucleic acid molecule with endonuclease activity of claim 2 and a pharmaceutically acceptable diluent.

This application is in condition for allowance except for the presence of claims 41-45 to inventions non-elected without traverse in the paper filed August 5, 2002. Accordingly, claims 41-45 have been cancelled.

Claims 2, 12-40 and 46-49 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 41-45, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement and now canceled as above, are not subject to being rejoined, since in accordance with the Official Gazette notice, *supra*, the process claims do not depend from or otherwise include all the limitations of the allowable product, and have thus NOT been rejoined.
